

2013 CATALOGUE

DESIGNERS & MANUFACTURERS OF MARINE PRODUCTS

OCEAN SOUTH

## WHO WE ARE...

From our humble beginning in 1986 Melbourne, Australia with a small team of boating enthusiasts **Oceansouth** has grown over 25 years to become a leading company in the marine industry, designing quality boating accessories.

Our well established network of customers throughout Australia and the Pacific region have come to know and trust our products because we have the knowledge and experience to understand what our customers want and need.

In 2013 we will be rolling out several new lines of product as well as doubling the size of our production facility to meet the demands of an ever increasing market.

We now supply our products to over 40 countries worldwide and continue to listen to our customers to find the best way to bring new products into our range to enhance their boating experience.

Our team of highly skilled designers, technicians, product testers, and production managers in our 'state of the art' production facility will work together to produce quality products and maintain the reliability that our customers have come to expect when they use an **Oceansouth** product.

We welcome you to our 2013 Catalogue and the introduction of our new products.

**Happy boating.**

## MESSAGE FROM THE CEO...

I would like to welcome you to our 2013 catalogue that show cases the new products we have been working on over the last year.

Sailing has always been my passion so I am happy to see this year the introduction of the sailboat bimini range, which will complement our existing bimini range.

Along with the introduction of the sailboat bimini, 2013 is shaping up to be a huge year for Oceansouth. As you will see there are many new products featured throughout the catalogue and the growth in our customer base has been extensive. Our products are now enjoyed in over 40 countries, across all continents.

With over 30 years in the marine market, I believe it is only with that experience and knowledge that we are able to determine and produce the products that should be included in our range and more importantly, what you would like to use on your boat.

I hope you enjoy the catalogue.

Fotis Lalizas
